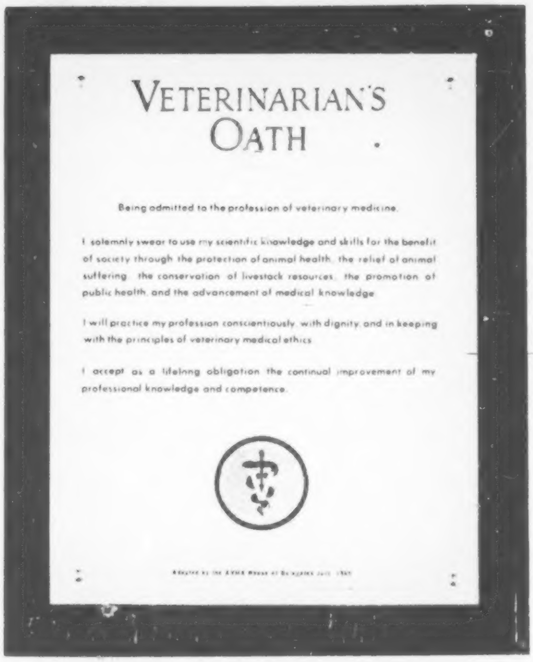
VETERINARIAN'S OATH PLAQUE



VETERINARIAN'S
OATH

Being admitted to the profession of veterinary medicine,

I solemnly swear to use my scientific knowledge and skills for the benefit of society through the protection of animal health, the relief of animal suffering, the conservation of livestock resources, the promotion of public health, and the advancement of medical knowledge.

I will practice my profession conscientiously, with dignity, and in keeping with the principles of veterinary medical ethics.

I accept as a lifelong obligation the continual improvement of my professional knowledge and competence.

NEW— **for office, hospital or den—a handsome walnut plaque with the Veterinarian's Oath mounted under plexiglass.**

This Oath was designed by the AVMA Judicial Council and adopted by the 1969 AVMA House of Delegates. Profits from sale of plaques go to AVMA Foundation.

Plaque measures 10½ x 13 inches
Complete with chain for immediate hanging

BOC Health Care

This is where we sell more animal health products than any other pharmaceutical company.

AND THIS IS WHY.

Because at Pfizer, we're committed. To research. To product quality. And to the industry we serve.

RESEARCH

Pfizer Inc. invests $300 million annually in worldwide research. A significant portion goes to discover new animal health products and to create new uses for existing products. Ultimately, these Pfizer efforts increase animal performance, which means added profitability and convenience for livestock producers.

QUALITY

Performance, safety and efficacy are ingredients that go into every one of our products.

We conduct efficacy and practical application tests at our farms in the U.S. and abroad. Quality assurance work, performed by bacteriologists, nutritionists, veterinarians and pharmacists, is ongoing. And quality control programs at our manufacturing facilities are so advanced that they've enabled us to pioneer new industry breakthroughs.

COMMITMENT

At Pfizer, commitment is what it all comes down to. We're committed to help keep an abundance of wholesome meat and poultry on the world's dinner tables. Through field and technical support, we're committed to the customers who use our products. And we support future producers and farmers through our commitment to FFA and 4H. We'll continue to serve all of these groups within the agricultural industry.

We know it's your confidence in our commitment that's made us a world leader. A confidence we'll continue to earn.

Manufacturers of many feed supplements and animal health products, including
Terramycin®, Banminth®, Mecadox®, Rumatel®, Liquamycin® LA-200®, Combiotic® and Strongid®.
